VII. SUBSTANCE USE DISORDER

Ms. Cole reviewed the minutes from the meeting.

B. Provider Memo Regarding Bucinnazine

Mr. Johnson presented a memo from Region 10 Medical Director, Dr. Nicholas Mischel, regarding exposures to a novel illicit substance, Bucinnazine, in Michigan.

VIII. DIRECTOR'S REPORT

Budget - Mr. Johnson stated that we will be bringing revisions to the CMH budgets to next month's Board meeting. Once we know the revised revenue, we expect to bring a recommendation regarding the potential provider incentive payments that were discussed at February's meeting.

Opioid Health Homes - Region 10 is in the third cohort for the Opioid Health Homes (OHH) rollout in Michigan, and we have been working on development of this model. This model will include partnering with providers who serve individuals with opioid use disorders. Opioid Health Homes will provide extra services like care management coordination, transitional care, health promotion, and referral to community support services. The PIHP will oversee the agreements with the providers for these services, and there will also be an enhanced payment for these services. We are required to have at least one partner in place by October 1, 2021.

System Redesign - Mr. Johnson reported that another redesign plan for privatization has emerged from the Michigan Senate and is similar to the 298 plan and the plan submitted by former Director Gordon. We have not heard about any support for this plan from the executive office, but we will learn more about this in the coming months .

SUD Block Grant - The SUD block grant terms and conditions were received. They are not identical to the current block grant; the State has met with the PIHPs to develop parameters that the Federal government will accept. The amount for Michigan is projected to be about \$17 million for FY21 and about \$35 million for FY22. A Request for Information (RFI) will be required before the funds are rolled out to the PIHPs and possibly one private entity in Michigan. Region 10 staff are ready to respond to this RFI when it is received.

Certified Community Behavioral Health Clinic (CCBHC) – The state has released another draft of the CCBHC demonstration project. There are currently 14 approved CCBHC sites in Michigan – 11 CMH agencies and 3 non-profits. The demonstration project will be operated through the PIHPs; currently the CCBHC's relationship is with the federal government, including all funding, reporting, and monitoring. The Michigan demonstration project is required to have at least one urban and one rural site, but they are hoping to have more. The demonstration sites will be chosen from the existing 14 sites, one of which is St. Clair CMH.

Recovery Housing - Ms. Cole inquired if there is any information on extensions beyond a year for recovery housing due to COVID. Mr. Johnson reported that he is unaware of any formal limitations, but he will look into it and follow up with her.
